

NORTH WEST LABELS

Make Your Message Stick

Friends, customers & suppliers:

As the Covid-19 situation escalates, we at **North West Labels** feel some measures must be implemented to protect the interests of our staff, customers & suppliers alike.

With immediate effect, we will restrict all non-essential visitors to our premises for the foreseeable future & will review this policy daily.

This may affect some customers, with upcoming or currently on-going design work.

Please be assured, we can offer this service remotely, so for now, working via email is our preferred option, rather than risking unnecessary face-to-face meetings with our designers.

Our sales people can also liaise via phone & email, so whatever your needs, please don't hesitate to get in touch. The same goes for our accounts dept.

Our deliveries will continue to be sent via Fastway / DPD courier, so provided there's no interruption to their deliveries, we can hopefully continue as normal.

As you know, we have a dedicated team who are committed to delivering the best possible service in designing & producing your goods. For their safety during this difficult period, we'd appreciate your co-operation on the matters above.

We are taking extra precautions internally & we carefully adhere to the advice of the Government.

With these measures in place, we're confident we can continue to offer our usual service with the minimum of interruption.

Thank you. #staysafe
